

GIVE ORDINARY CONCRETE THE LOOK OF NATURAL STONE

Pure Texture transforms ordinary patios, pool decks and driveways into works of art. Our unique resurfacing method gives concrete the look of slate, flagstone, saltillo tile or travertine, and can transform your simple patio, pool deck, driveway, walkway, or even your shower, counter top or fireplace into something spectacular.

Our concrete-acrylic coatings are applied directly over existing surfaces including old tile, painted surfaces, concrete surfaces and even glass! It's perfect for both residential and commercial uses – anywhere you need a beautiful, durable surface.

We have over 30 years experience specializing in this industry and we aim for complete customer satisfaction on every job with our uncompromising attention to detail and superior workmanship.

THE SENSIBLE ALTERNATIVE TO STONE

Our creative resurfacing provides a practical way to enjoy durable, natural-looking surfaces that are in many ways, better than real stone. Our unique surfaces resist stains, mildew, most chemicals, fading from sunlight (UV) and are engineered to cure at nearly 7,500 P.S.I. That's three times the strength rating of traditional concrete! Our systems are water resistant, low maintenance, non-skid and stay cool to the touch. This adds safety and comfort to pool decks, driveways and patios. Our Certified Installers will offer a 10-year guarantee with a maintenance agreement.

Our surfaces look authentic, but cost a fraction of what you'd pay for real stone or tile. Expensive looking surfaces can be within reach of nearly any budget. More than just beautiful and durable, our designs are flexible and can be resurfaced or colored at any time so you're not stuck with the same look for the entire life of your home or business!

CUSTOM DESIGNS THAT FIT YOUR ARCHITECTURE AND LANDSCAPING

We customize our surfaces to complement your use and setting. You select the colors and surfaces (smooth or textured, glossy or matte) and are invited to be there during color mixing and application to ensure your satisfaction. All of our work is done by hand, we never use "stamping" methods. You determine the size of tile for your project. Choose from hundreds of designs and colors in our portfolio, or we'll help you create your own. If you can formulate an idea onto paper, our in house design team can conceive it into a reality!
